AVG CloudCare™

Now even your smallest
customer can be a profitable one.

An award-winning solution that help deliver an even better experience for your customers, **and a more profitable relationship for you...**

What's not to like?

"AVG CloudCare™ gives you the ability to remotely access and manage a customer's network intrusions, threats and security policies as well as quite a lot of their network requirements. As far as I'm aware there's no other software on the market that has that kind of malleability."

Steve Whyman, Owner-manager, Xerver Limited

Winner of the MSP Alliance© MSPWorld Cup 2013 award for Best Cloud Solution

Is it *really* possible to increase revenue with smaller businesses?

It is now.

It just takes 2 simple things:

A Free, web–based platform with remote IT that simplifies how you manage all your customers' networks from a single, central platform and **pay–as–you–go services** that delivers the essential services every business needs...

Make more money
Help boost your profit margins with cloud services and demonstrate added value to your customers. Identify revenue opportunities with real-time sales alerts.

Lower costs
Pay only for the services your customers use. With remote access and one-click activation, costs are minimised so even your smallest customers can be profitable.

Save time
Remotely manage your customers from our free, cloud–based administration platform, enabling you to save both time and travel costs. Real-time and automatic updates mean less work for you.

- Web-based access.
- FREE remote management tool.
- One-click customer & service activation.
- Real-time alerts & sales alerts.
- Flexible and co-branded reporting.

- 30-day trials for multiple services.
- Easy policy management.
- No upfront investment.
- No license keys, no seat limits.
- AVG CloudCare Forum.

When growing (profitably) with the smaller business is this easy...

Why complicate?

Respond quicker, protect their network, secure their communications and store their data safely.

All from the FREE platform that simplifies IT management.
